

● OPEN TO CONSULTING, PROJECT-BASED & FRACTIONAL WORK

Afaq UI Islam

Full-Stack & AI Engineer — Co-Founder & COO, Neofyx

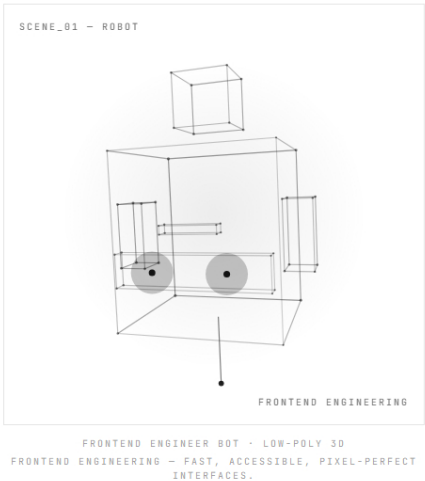

Full-stack and AI engineer with hands-on, end-to-end experience building web applications, AI-powered automation systems, and SaaS products. Co-Founder and COO at Neofyx, an AI automation and SaaS startup in Karachi, where I lead product engineering and client delivery. First-year BS Computational Mathematics student at the University of Karachi, also enrolled in GIAIC's Full-Stack Development & AI / AI Agent Systems / Cloud & Web Development program (top 10% performer, Batch 1, 90-95th percentile across three quarters). Active open-source contributor with 70+ public repositories on GitHub. Comfortable scoping requirements, architecting solutions, and shipping working software independently across modern web and AI stacks.

GIAIC Batch 1 — 90-95th percentile across three quarters

Experience

Selected work building SaaS and AI products. Full work history and references are available on request.

Download CV (PDF)

01

Full-Stack Web Development

React, Next.js (14, 16, App Router, ISR, Turbopack), TypeScript, FastAPI, Python — building, deploying, and maintaining production web applications and SaaS platforms.

02

AI & Agentic Development

OpenAI Agents SDK, Chainlit, Groq AI, Google Gemini, Claude — building multi-agent/agentic systems, n8n workflow automation, and AI-powered content and data pipelines.

03

Product & Technical Leadership

Scoping features, architecting solutions, and taking products from concept to deployment as a startup co-founder and hands-on engineer.

04

Cloud & Deployment

Google Cloud Run, Docker, CI/CD, Vercel, Hugging Face — containerization, deployment pipelines, and cost-conscious infrastructure for early-stage products.

HOW I WORK

01	02	03	04
Discover	Architect	Build & iterate	Deploy & support
Dig into your goals, users, and constraints first — no code until the problem is crystal clear.	Right-sized architecture: the stack, structure, and trade-offs chosen for your product, not for a resume.	Short, visible build cycles with regular check-ins, so you always know what's shipping and why.	Production deployment, monitoring, and a clear handover — plus ongoing improvements after launch.

Dec 2025 – Present • NEOFYX

Co-Founder & COO

AI automation and SaaS startup in Karachi — leading operations, technical execution, and product delivery.

- Lead operations, technical execution, and product delivery; structure workflows and define technical direction so projects move efficiently from concept to deployment.
- Build full-stack features and AI-powered functionality end to end for client-facing applications.
- Drive product engineering as a hands-on full-stack and AI engineer alongside co-founders across CEO and CTO functions.

Sep 2024 (1 month) • CODEALPHA (REMOTE)

Frontend Development Intern

Virtual internship focused on frontend development fundamentals.

- Completed a one-month Frontend Development Virtual Internship (1–30 September 2024).
- Independently built and deployed three responsive web projects using HTML, CSS, and JavaScript: an Audio Player, a Calculator, and an Image Gallery.
- Applied core frontend concepts including DOM manipulation, responsive UI design, and interactive

Ongoing • INDEPENDENT

Full-Stack Developer (Freelance / Project-Based)

Freelance and project-based engagements spanning web builds, AI automation, and agentic systems.

- Built and deployed a personal portfolio website using React, TypeScript, Tailwind CSS, and Framer Motion.
- Designed and implemented an n8n automation workflow for AI-generated video content and multi-platform publishing (YouTube, TikTok), integrating Groq LLMs and the kie.ai Veo3 API.

SELECTED PROJECTS

PROJECT_01

Kisaan Dost AI — Crop Disease Detector

AI-powered crop disease detection tool for Pakistani farmers, built with Google Gemini Vision and deployed on Google Cloud Run, for Google AI Seekho 2026. Won Silver Tier.

GOOGLE GEMINI

PYTHON

GOOGLE CLOUD RUN

AI VISION

PROJECT_02

CIRO AI — Multi-Agent Crisis Response System

Built with a team (Aadil Memon, Muskaan Fayyaz) for AI Seekho Phase 2, coordinating multiple AI agents to support crisis response workflows.

PYTHON

MULTI-AGENT AI

ORCHESTRATION

PROJECT_03

TaskSnap AI — Screenshot-to-Task Extractor

AI tool that turns a screenshot of any conversation into a prioritized, deadline-aware task list. Built for "Chai aur Code", a monthly vibe-coding session by GDG Live Pakistan.

NEXT.JS 16

REACT 19

TYPESCRIPT

GROQ AI

TAILWIND CSS V4

PROJECT_04

AURELIA — Luxury Fashion E-Commerce

Built for the Google Build with AI 2026 workshop (GeeksforGeeks); deployed on Google Cloud Run.

NEXT.JS

TYPESCRIPT

GOOGLE CLOUD RUN

PROJECT_05

Personal AI Employee

Agentic personal-automation system built for GIAIC Hackathon 0, using Obsidian for persistent memory, Python watcher scripts, and a CLI reasoning engine with tiered Gmail, WhatsApp, LinkedIn, and social-posting automation.

PYTHON

OBSIDIAN

N8N

AUTOMATION

PROJECT_06

Taskory — AI Full-Stack Task Manager

Task manager with natural language processing, JWT authentication, real-time task management, and multi-AI-provider support.

PYTHON

FASTAPI

JWT

REST API

PROJECT_07

MORENT — Car Rental Marketplace

Booking platform with smart filters, booking calendar, and interactive charts, built for GIAIC Hackathon 2025.

NEXT.JS

SANITY CMS

CLERK

SHADCN/UI

PROJECT_08

AUI Bloggo — Dev Blog Platform

Production blog with Next.js 14 ISR, Sanity CMS, Tailwind CSS, dark mode, auto table-of-contents, and dynamic SEO, deployed on Vercel.

NEXT.JS 14

SANITY CMS

TAILWIND CSS

VERCEL

PROJECT_09

ChatAUI — Conversational AI Assistant

Enterprise-style assistant built with Chainlit, the OpenAI Agents SDK, and OAuth 2.0 on a Python backend.

PYTHON

CHAINLIT

OPENAI AGENTS SDK

OAUTH 2.0

PROJECT_010

25 Python Projects

A portfolio of 25 production-ready Python projects (socket games, computer vision, AI assistants, REST APIs, full-stack integrations) built for GIAIC.

PYTHON

COMPUTER VISION

REST APIS

SOCKET PROGRAMMING
